PUNTO DIGITALE FACILE

There is a Point where digital gets easy

Visit our Easy Digital Point for
free support and training
in the use of digital technology services.

Our support services

We offer individual support from experts who can help you resolve specific problems, like:

- register so that SPID provides authorization for family members in the principal online services
- install the IO APP and other useful apps on your smartphone
- and lots more.

Connect to our website shown in the **Contacts** section and see the list of services you can request.

Book an appointment now by calling the number in the **Contacts** section, or using our online booking service or mobile app.

Our training services

Would you like to learn how to be autonomous and do everything on your own? We have what you need. We organize training courses for all skill levels, from how to use computers and smartphones for first time users, to advanced training courses for extending your knowledge and learning about other opportunities provided by the digital world.

Connect to our website to see what we offer and find the courses that best suit your needs!
